

Auto Heating and Air Conditioning, A7 (Hardback)

By Chris Johanson

Goodheart-Wilcox Publisher, United States, 2014. Hardback. Book Condition: New. 4th. 282 x 224 mm. Language: English . Brand New Book. Auto Heating and Air Conditioning is a comprehensive text that focuses on operation, diagnosis, and service topics. It contains detailed information on refrigeration, heating, and engine cooling system components; climate control electronics; refrigerant handling; and both manual and automatic temperature control systems. Proper refrigerant recovering and recycling practices are emphasized. This text is a valuable resource for anyone who needs a thorough understanding of today's automotive heating and air conditioning systems, including those preparing for ASE Certification Test A7, Heating and Air Conditioning. The text is correlated to the Heating and Air Conditioning section of the NATEF Task List. Color-keyed illustrations are used to help clarify system operating phases, components, and airflow. Information on electric compressors used in hybrid and electric vehicles is included. Optional digital platform including premium online text, shop manual, workbook, videos, animations, instructional content and course management tools available.

Reviews

These kinds of publication is the greatest pdf available. Better then never, though i am quite late in start reading this one. Once you begin to read the book, it is extremely difficult to leave it before concluding.
