Taylor Francis Ltd, United Kingdom, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. This timely, in-depth examination of the educational experiences and needs of mixed-race children (the fifth minority) focuses on the four contexts that primarily influence learning and development: the family, school, community, and society-at-large. The book provides foundational historical, social, political, and psychological information about mixed-race children and looks closely at their experiences in schools, their identity formation, and how schools can be made more supportive of their development and learning needs. Moving away from an essentialist discussion of mixed-race children, a wide variety of research is included. Life and schooling experiences of mixed-raced individuals are profiled throughout the text. Rather than pigeonholing children into a neat box of descriptions or providing readymade prescriptions for educators, Mixed-Race Youth and Schooling offers information and encourages teachers to critically reflect on how it is relevant to and helpful in their teaching/learning contexts.
