Createspace, United States, 2015. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Reviews on Amazon of 1st Edition Truly bizarre, utterly unique I've never read a novel quite like this before. The author takes you on an exciting adventure full of unforgettable and vivid imagery. Solidly written with each character's personality shining through. If you find physics fascinating you will not be disappointed by the author's keen intellect and clear understanding of this most challenging (for me anyway) scientific subject. This is not a novel I will forget anytime soon, I would highly recommend it. Andrewly Very imaginative tale Anybody interested in a very imaginative and engrossing sci fi story needs to check this one out. I have been reading sci fi for decades and this story has elements that surprise me which is very unusual considering the number of novels and stories I have over the years. ric freeman Summary of the story The cosmic monopole has been wandering the Universe since it was created in the Big Bang. Its existence is fundamental to the way the Universe works. It is finally trapped by the powerful magnetic fields inside the ATLAS detector at CERN, Geneva, and begins to absorb protons from the LHC. Irish school-girl Catriona O'Brien knows nothing about this, of course. She has persuaded her adoring step-father Sam to bring her to Geneva on the pretext of visiting her mother Brigit who is the Irish Ambassador to the UN. But actually Catriona is trying to solve the mystery of how and why her scientist-father was killed in his Dublin laboratory six years ago, a murder to which she was the only witness. When they visit CERN, she meets the secretive little Chinese-Irish scientist...
