RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 36 pages. Original publisher: Washington, D. C. : United States National Center for Education Statistics, 2006 OCLC Number: (OCoLC)71825892 Subject: Literacy programs -- United States. Excerpt: . . . Part II COMPONENTS OF A DECISION SUPPORT SYSTEM Questions to be addressed: What components, features, and capabilities commonly comprise a decision support systemHow does each broad category of these common components and features contribute to system operation Common Components of Decision Support Systems escribing a single model that would apply to every decision support system used in all education settings is challenging if not impossible. Still, most of the systems used in an education environment have some features in common. The D following description is based on these commonalities. In general terms, decision support system components commonly include: Data Quality: The Foundation of Any Decision Support System 1. Data collection Hardware, Software, and Data Management Processes A DSS does not 2. Hardware, networks, and operating systems make decisions; it only 3. Underlying data sources supplies information, 4. Extract, transform, and load (ETL) process presented efficiently, 5. Data warehouse or data aggregator to help staff make 6. Analysis...
