# Monthly notices of the Royal Astronomical Society Volume . 54

By Royal Astronomical Society

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 216 pages. Dimensions: 9.7in. x 7.4in. x 0.5in.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1894 Excerpt: . . . other radius OB of the same length as OA will be divided uniformly into a smaller number of parts. For Fig. 6. convenience new perpendiculars may be drawn at any other radius 00, OD, and c. Let us call a circular sector so divided a reducing scale. Thus if FGH (tig. 6) be again our T square, and a reducing scale OAE be pivoted at O on the edge FK, then the maximum ordinate OB can be divided into any arbitrary number of parts p by rotating the reducing scale. Let us now cut out of card a single tine curve VAR, which may be slid beneath the arm FK of the T square, the edge WX of the card bearing against the T of the square. Then the ordinate OP will be p sin (P a), as before, if the index be adjusted so that...

Reviews

This is the finest book i have got study till now. It usually does not price a lot of. I found out this publication from my i and dad encouraged this book to understand.
-- Jamil Collins

Absolutely among the best book I have possibly go through. I have go through and that i am certain that i am going to gonna read through once again again in the future. I am just delighted to tell you that this is basically the finest book i have got go through within my personal existence and could be he finest book for ever.
